AMERICAN AND FOREIGN OFFICE.
R. H. EDDY, Solicitor of PATENTS
(Late Agent of U. S. Patent Office, Washington, under the Act of 1857.)
No. 76 STATE, OPPOSITE KIRBY ST.,
ROCHESTER.
AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries.—Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
This Agency is not only the largest in New England, but through its inventors have advantages for securing patents, not possessing the patent library of inventions, unsurpassed by if not immeasurably superior to any which can be offered them elsewhere. The testimonials below give proof that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past has enabled him to accumulate the collection of specifications and official decisions relative to patents. Besides his extensive library of legal and mechanical works, and all documents of patents granted in the United States and Europe, render him able, beyond competition, to offer superior facilities for obtaining patents.
All necessity of a journey to Washington, to procure a patent, obviated, and a great saving of time.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most competent and successful practitioners* with whom I have had official intercourse."
CHAS. MASON, *Late Commr. of Pats. &c.*
"I have no hesitation in recommending inventors that they cannot employ a person more competent and more *capable* of securing for them a valid patent in a form to secure for them all the rights to which they are entitled in the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.
Boston, February 8, 1858.
"Mr. R. H. Eddy has obtained for me THIRTEEN application [illegible] of which twelve have been allowed, and that one is [illegible] the proof of great ability and faithfulness in the performance of his duties to his patrons. NEWPORT DAILY NEWS,

Published every Morning—Sundays excepted, by

GEORGE T. HAMMOND,

EDITOR AND PROPRIETOR.

At 144 Thames St., corner of Frank

TUESDAY MORNING, Aug. 17, 1858.

☞ The defeat of Francis P. Blair, before the people of the St. Louis Congressional District, seems to be a subject of gratulation to many of the Republican newspapers. They say that he could do a great deal more to further the interests of the Republican party at home, than he could do in Congress; therefore, it is better that he should have been defeated than elected. This is a matter that we shall not attempt to discuss; we should have rejoiced at his election, and we very sincerely regret his defeat. But the result cannot now be changed; nevertheless, the whole opposition party in the country may derive a profitable lesson from this disaster. The Democratic candidate was elected, when there was, in that District, a majority of five thousand against him, simply because the opposition was not united. This is a new illustration of the old adage "united we stand,—divided we fall." The Democrats will quarrel and fight and vote together all at the same time, while the smallest difference of policy is a sufficient pretext for any portion of the opposition to cut loose from their party, and set up business on their own account. The administration party are all constantly looking to the public crib, and they suffer nothing to divert, even for a moment, their attention from that object. The opposition are always debating about, and dividing upon abstract principles of government.

How many lessons like the one contained in the defeat of Blair will it take to learn the opposition the wisdom of being united, and the necessity of concession, in order to accomplish this desirable purpose? They have had a great many of them, yet they will not profit by experience.

"It is now about forty years since England turned her attention to putting down the slave trade."—*N. Y. Herald.*

"It is now about forty" times, or thereabouts, that we have directed the attention of the public to the gross ignorance displayed in the editorial columns of *Bennett's Herald*,—of which the above extract is a specimen.

It is known to all intelligent readers that more than *seventy* years have elapsed "since England turned her attention," "by the efforts of Clarkson, Sharp and their associates, "to the putting down of the slave trade." Yet the *Herald* calls it "about forty years"—and that is probably all the writer knows on the subject. He does not mean to be about it, but only to expose his stupid and unpardonable ignorance—and this he does with great emphasis and effect. Any tolerable school-boy could have told him that the slave trade was finally abolished by act of Parliament upwards of fifty years ago, after fully twenty years' agitation.

The people of the old town of Bristol seem to have more genuine public spirit than all the rest of our State. They have made arrangements for celebrating the success of the Atlantic Cable enterprise in a very creditable manner. When the Queen's message to the President is announced, the flags are to be hoisted, one hundred guns are to be fired, and the bells of the churches are to be rung. In the evening following, there is to be a grand Torch Light Procession, and the houses of the citizens are to be illuminated. The torch light procession, from what we know of the arrangements, will be a splendid affair. As our own city is dead and buried on this subject, as well as touching the matter of national independence, we advise all who want to witness a celebration worthy of the event, to visit Bristol on the evening following the reception of the first message over the Atlantic wire.—*Prov. Post.*

Ancient Copy of the Scriptures.—The oldest Bible in the United States belongs to Rev. Mr. Duffield of Detroit. It covers six hundred pages, and the lettering is all done by hand with pen and ink. Every letter is perfect in its shape and of about the size of the type used in our newspapers. The date of this Bible is A. D. 920. It was consequently made 560 years before printing was invented, and is 928 years old. This Bible was presented to Dr. Duffield by Lewis Cass, Jr., our minister resident at Rome. He procured it of a Greek monk, who brought it from the Greek Convent of St. Catherine, at the foot of Mount Sinai. When it became known that Mr. Cass was going to send the Bible to this country, three thousand dollars were offered him for the book by the monks of the city of Rome.

Michael McCabe, a conductor on the Long Island Railroad, was killed on Thursday afternoon, about 6 o'clock, at the village of Hempstead. He was uncoupling the engine and baggage car, and while drawing the bolt, to allow the train to move itself, fell forward under the platform of the first car, upon which he stood.

The engineer of the train kept it forward for a short distance after he had relieved the engine, and the proof follows that he fell in an instant. He was carried, as soon as possible, to Brooklyn, and placed in the Hospital, but died in ten minutes after his arrival. Mr. McCabe was about 28 years old, and leaves a wife, but no children.

Bad luck is simply a man with his hands in his breeches pockets, and a pipe in his mouth, looking on to see how it will come out. Good luck is a man of pluck to meet difficulties, his sleeves rolled up, working to make it come right.

LOCAL NEWS.

☞ We gather the following particulars from the captain of the sloop Bristol, in relation to the splitting of his mainsail Saturday. He was passing out through the channel by Fort Adams, and when near the schooner Montezuma lying at anchor, the pleasure boat James Buchanan stood directly across his bows. He hailed the boat from such a position and requested him to luff up and allow him to pass. This he refused to do, thus forcing the Bristol to either attempt to run her down, (which he would have been justified by law in doing,) and endanger the lives of several passengers on board, or run into the Montezuma. He chose the latter, and besides seriously damaging his mainsail, lost his run to New York. We learn that the owner of the Buchanan, on learning the above facts, promptly discharged the boatman.

NARROW ESCAPE FROM DROWNING.—We learn that yesterday morning, while a man named Frazier was bathing off the Cliffs, near Mr. Ives' house, in this city, he by some means lost control of himself, and was in imminent danger of drowning, when two waiters at the Atlantic House, whose names we do not know, at the risk of their own lives brought him ashore, when Dr. W. Argyle Watson, of this city, was sent for and with great difficulty succeeded in resuscitating him. He will probably recover.

SUMMER AGAIN.—After "boxing the compass," the storm has at last left us, and with the first summer day we have been blessed with for a fortnight. Yesterday A. M. the barometer commenced to go up and the thermometer to follow suit, and at 2 o'clock the latter indicated 76 degrees in the shade. This change in the weather has infused new life into everything, from a hop-toad up to the "tallest" specimen of a Southern belle. The Beach was thronged with bathers yesterday A. M., and everybody were astir thronging the pleasure haunts and the pleasure drives of the city. We congratulate the hotel keepers, and the keepers of other places of public resort, on the happy change in their business which the departure of the wretched weather of the past two weeks is sure to bring.

MR. EDITOR:—Allow me to suggest that the wooden railing around the "Stone Mill" be removed, and that the "English Ivy" be planted at its base, when a most picturesque appearance would be presented by this ancient and mysterious ruin.

A TEMPORARY RESIDENT.

MR. EDITOR:—Allow me to suggest that it *can't be done.* The Ivy suggestion is as good as old, but the deed of the land provides that the mill shall be kept enclosed. Won't "Temporary Resident," or somebody else, head a subscription to substitute an elegant iron enclosure, for the present unsightly "corporation fence?"

☞ Com. John Eldred, yesterday, presented our local reporter with a land turtle caught in Jamestown, weighing nine and a half pounds. The animal may be seen in our office for a few days, after which it will be sacrificed.

☞ We learn that Mr. Charles Wingate has been elected rector of Emmanuel church in this city. He takes the place of the Rev. D. R. Brewer, who will in a few weeks remove to his new parish in Yonkers, N. Y.

EXCURSION TO ROCKY POINT.—Aquidneck Engine Company, No. 5, will make an excursion to Rocky Point, on the 25th of the present month, in the steamer Canonicus. Gilmore's Pawtucket Band will accompany the excursion.

THE YACHT SQUADRON.—Six yachts—the America, Norma, Bonita, Reindeer, Wilp, and one other, were in our harbor last evening.

THAT PROGRAMME will be published tomorrow.

☞ There will be a Hop at the Ocean House on Thursday Evening August 19th.

REMOVAL OF WASHINGTON'S REMAINS. A report having gained circulation that Mr. Jno. A. Washington designed to remove the remains of the Father of his Country from Mount Vernon previous to the transfer of the property to the ladies of the Mount Vernon Association, the Richmond *Enquirer* of Tuesday morning ventures to contradict it—without authority, however. Mr. Jno. A. Washington of Mount Vernon (says the Richmond *Enquirer*) is a gentleman of the highest character and virtue, and throughout the entire negotiation for Mount Vernon has evinced the greatest liberality. Had he been the mercenary creature represented by these papers, he would never have sacrificed the very large offers made to him by Yankee companies whose sole object was a speculation on the love for Washington. The institution of Mount Vernon as a place for free public resort had a early impressed Mr. Washington, and the price for which he has sold the place is greatly below what he has frequently been offered for it by speculators, and much less than it would have brought in the market. As for removing the remains from Mount Vernon, that is simply a Yankee "rumor," worth of no credit whatever.

AN EDITOR OUT WEST, thus talks to mankind in his editorial:—"Wagons cannot run without wheels, boats without steam, bridges jump without legs, or newspapers be carried on everlastingly without money, no more than a dog can wag his tail when he ain't got none. Our subscribers are all good, but what good does a man's goodness do us when it don't do any good. We have no doubt every one thinks that all have paid except him, and as we are a clever fellow and this a little matter, it will make no difference."

THE BETRAYER AND THE AVENGER.—We find the following item in a late number of the Review, published at Cleveland: One day last week, there passed down, on the steamer Michigan, a man, having in irons another who had, some three years since, seduced his sister. The seduction was under promise to marry, and the seducer ran away the day before. The brother of the injured woman started in pursuit, and caught him at Erie, but, by some means, the rascal escaped. The brother still kept on his track, and found him again, but again he lost him. Month after month passed on, and the relentless brother wandered about in pursuit, but could get no trace of the object of his search. A little while ago, however, he saw a paper, published at Hilpen, Wisconsin, in which there was of the seducer appeared as editor. Thither he went, armed with a requisition from the Governor of Pennsylvania, and arrested him, and now, after a pursuit of three years, lies the seducer of his sister's honor literally in his grasp. The parties live in Pennsylvania, but who they were, or what their names are, we failed to learn.

DEATH OF THE OLDEST HORSEWARDING MERCHANT.—Mr. Abraham Van Santvoord, the oldest forwarding merchant in the Hudson river and canal freighting business, and late senior agent of the Swiftsure line, died on the 12th inst., at his residence in Jersey City. He was held in high esteem by all who knew him. Mr. Van Santvoord was 74 years of age. He carried on the forwarding business on the Mohawk river prior to the last war with England.—*New York Com. Adv.*

ANOTHER TELEGRAPH PROJECT.—The projectors of the telegraph from Key West to Havana propose to extend their line from that port to Yucatan, thence across to Tehuantepec, and down to Panama, and ultimately to San Francisco. Another company has agreed to build a line from Savannah, Georgia, to Key West, and all the Atlantic cities will thus be brought into direct communication with Havana.

The *N. Y. Journal* mentions the name of Col. Wm. C. Alexander, of this State, as a suitable candidate for the Presidency.

The Methodist Episcopal Church South the past year expended $75,000 on missions to slaves.

DIED.

In this city, 16th instant, Mr. David Brannan, aged 70 years.

Funeral Wednesday afternoon, at 2 o'clock, from his late residence in Thames Street.—Friends and relatives are invited to attend without further invitation.

IMPORTANT INFORMATION.

In answer to the many correspondents who desire to know how they can buy tickets in Swan & Co.'s lottery, we would state that they must enclose their money, and direct to S. Swan & Co., Augusta, Georgia. If the sum is large, have the letter registered; if it is not large, it is unnecessary, for the firm is receiving thousands of dollars through the mails from all parts of the United States, and we would say, that they may rely upon *prompt* returns, and also upon the *punctual* payment of any prizes said ticket may be entitled to. Whole tickets, $10; halves and quarters in proportion. It is the determination of this firm to *merit* the confidence of their friends and the public have placed in them. A lottery draws every Saturday.—*Sunday Mercury.*

Cheap Fare to Boston.—Messrs. Editors:—In an article under this heading, which appeared in your paper of the 25th inst., the attention of the travelling public is called to the *great reduction* of fare by the Fall River, Stonington and Norwich lines—and believing that the public will be as "much pleased" to learn the cause of this *great reduction made expressly for their benefit*, I would state that it was brought about by the enterprising owners of the steamer Governor, they having placed her on the Bristol route at a $1.00 fare through, and $2.00 from Providence, Bristol and Newport to New York. At this low fare none who have occasion to travel need complain. The public will also *understand clearly* that this great reduction by the Fall River, Stonington and Norwich lines is only on the Governor's days of leaving, and no other days have they the Fall fare—$1.50. The "Governor" leaves Boston every Monday, Wednesday and Friday, and New York every Tuesday, Thursday and Saturday at 4 P. M., touching at Newport and Bristol. This boat has recently been thoroughly refitted in the most elegant and substantial manner, and nothing which would add to the safety or comfort of travellers has been neglected. Her qualities as a sea-going steamer are too well known to need any report. It only remains for the public to determine whether she shall be supported and an independent Daily Line formed at a low fare, as will soon be the case, or whether monopoly shall still reign.—Boston Traveller.

LATEST NEWS.

BY TELEGRAPH

TO THE

NEWPORT DAILY NEWS.

From Washington.

New York, Aug. 16.—The President returned here last evening and proceeded to his summer residence.

Gen. Harney and the Peace Commissioners, Messrs. Powell and McCullough, also arrived here yesterday, and severally had interviews with the Secretary of War. Gen. Harney expects to proceed to the Pacific in a few days.

Mr. Stockton, Minister to Rome, and General Fair, of Alabama, Minister to Belgium; are both awaiting their final instructions.

Laying of the Corner Stone of St. Patrick's Cathedral in New York.

NEW YORK, Aug. 16. The ceremony yesterday of laying the corner stone of the new Cathedral of St. Patrick, in this city, drew together an audience of from 50,000 to 60,000 persons. A sermon for the occasion was preached by Archbishop Hughes who stated that the subscriptions of $1000 each now amount to 103. Contributions to a large amount were also deposited on the corner stone. Among the memorials deposited in the corner stone was a document in Latin, of which the following is a translation: "Postscript—Within a few days past has occurred the wonderful laying of the electric cable in the depths of the Atlantic Ocean, from shore to shore. Thus is established instantaneous communication between America and the European States. For the happy completion of this work, most credit is due to the invincible fortitude of our celebrated fellow-citizen, Cyrus W. Field."

PROSPECTUS.

Volume Fourteen

BEGINS SEPTEMBER 11, 1858.

MECHANICS, INVENTORS,

Manufacturers and Farmers,

THE SCIENTIFIC AMERICAN has now reached its FOURTEENTH YEAR, and will enter upon a New Volume on the 11th of September. It is the only weekly publication of the kind now issued in this country, and it has a very extensive circulation in all the States of the Union. It is not, as some might suppose from its title, a dry, abstruse work on technical science, on the contrary, it so deals with the great events going on in the scientific, mechanical and industrial worlds, as to please and instruct every one. If the Mechanic or Artizan wishes to know the best machine in use, or how to make any substance employed in his business—if the House-wife wishes to get a recipe for making a good color, &c.—if the Inventor wishes to know what is going on in the way of improvements—if the Manufacturer wishes to keep posted with the times, and to employ the best facilities in his business—if the Man of Leisure and Study wishes to keep himself familiar with the progress made in the chemical laboratory, or in the construction of telegraphs, steamships, railroads, reapers, mowers and a thousand other machines and appliances, both of peace and war—all these *desiderata* can be found in the SCIENTIFIC AMERICAN, and *not elsewhere.* They are here presented in a reliable and interesting form, adapted to the comprehension of minds unlearned in the higher branches of science and art.

TERMS:—One Copy, One Year, $2; One Copy, Six Months, $1; Five Copies, Six Months $4; Ten Copies, Six Months, $8; Ten Copies, Twelve Months, $15; Fifteen Copies, Twelve Months, $22; Twenty Copies, Twelve Months, $28, in advance.

Specimen copies sent gratuitously for inspection. Southern and Western money, or Postage Stamps, taken for subscriptions.

LADIES' DELIGHT!
RELIEF COME AT LAST.

WISNER'S Washing Machine, Patented Sept. 29th, 1851, is a large tub with zinc fitted on the bottom, also on the under side of the rubber. It stands on a stool, and weighs about 25 lbs; is simple and handy and has been thoroughly examined and tried by thousands in the West within the past year, who pronounce it to be the best labor saver ever offered to the public. It has been tested sufficiently long to prove that wherever it has been used properly, it will tell a better story for itself than I can communicate. Give it a trial, and you will be entirely satisfied of its superior merit.

DOWNING respectfully informs cottagers and others, that he is prepared to furnish them with Ice Cream of a superior quality, at reduced rates. The quality of the same shall be equal, if not superior, to any vended. He would remark that the cream made "at home" in the "patent freezers," cannot compare, for softness and delicacy of flavor, with that made with much more labor; as the construction of the machine will not admit of the manifestation necessary; besides, his patrons may have the advantage of a great variety in flavor and composition, some of which are made exclusively by him; he has fancy, petit, and stationary forms.

Charlotte de Russe, Jelly Cake Pies, and all other confectionery furnished. Also, Soups, Pattie Truffles, Game, Boned Turkeys, and other jelled dishes.

The superior Black Hamburg Grapes on exhibition in his window, may be had at $1 a pound.

Matinee, Dinner and Evening Parties at cottages supplied. Game suppers furnished to order in an adjoining cottage.

MEDICINES.

THE LIVER INVIGORATOR.
PREPARED BY DR. SANFORD;
Compounded Entirely from Gums,

IS One of the best Purgative and Liver Medicines now before the public, that acts as a Cathartic, easier, milder, and more effectual than any other medicine known. It is not only a Cathartic, but a Liver remedy, acting first on the Liver to eject its morbid matter, then on the stomach and bowels to carry off that matter, thus accomplishing two purposes effectually, without any of the painful feelings experienced in the operations of most Cathartics. It strengthens the system at the same time that it purges it; and when taken daily in moderate doses, will strengthen and build it up with unusual rapidity.

[illegible]

SANFORD'S LIVER INVIGORATOR.

[illegible]

All who use it are giving their unanimous testimony in its favor.

☞ Mix Water in the mouth with the Invigorator, and swallow both together.

THE LIVER INVIGORATOR IS A SCIENTIFIC MEDICAL DISCOVERY, and is daily working cures, almost too great to believe. It cures as if by magic, even the first dose giving benefit, and seldom more than one bottle is required to cure any kind of Liver Complaint, from the worst Jaundice or Dyspepsia to a common Headache, all of which are the result of a Disensed Liver.

Price one dollar per bottle.

DOVER, N. H., Feb. 2, 1857.

PROF. O. J. WOOD & CO.—Gents: Within a few days we have received so many orders and calls for Prof. O. J. Wood's Hair Restorative, that to-day we were compelled to send to Boston for a quantity, (the dozen you forwarded all being sold,) while we might order a quantity from you. Every bottle we have sold seems to have produced three or four new customers; and the application, and patronage it receives from the most substantial and worthy citizens of our vicinity, fully convince us that it is A MOST VALUABLE PREPARATION.

Send us as soon as may be one gross of $1 size; and one dozen $2 size; and believe us yours very respectfully.

Hickory Grove, St. Charles Co., Mo., Nov. 19, 1856.

PROF. O. J. WOOD—Dear Sir: Some time last summer we were induced to use some of your Hair Restorative, and its effects were so wonderful, we feel it our duty to you and the afflicted, to report it.

Our little son's head for some time had been perfectly covered with sores, and some called it scald head. The hair almost entirely came off in consequence, when a friend, seeing his sufferings, advised us to use your Restorative, we did so with little hope of success, but, to our surprise, and that of all our friends, a very few applications removed the disease entirely, and a new and luxuriant crop of hair soon started out, and we can now say that our boy has as healthy a scalp, and as luxuriant a crop of hair as any other child. We can therefore, and do hereby recommend your Restorative, as a perfect remedy for all diseases of the scalp and hair.

We are, yours respectfully,

PROF. O. J. WOOD—Dear Sir: I have used two bottles of Professor Wood's Hair Restorative, and can truly say it is the greatest discovery of the age for restoring and changing the hair. Before using it I was a man of seventy. My hair has now attained its original color. You can recommend it to the world without the least fear, as my case was one of the worst kind

Medicines.

The following remedies are offered to the public as the best, most perfect, which medical science can afford. AYLE'S CATHARTIC PILLS have been prepared with the utmost skill which the medical profession of Europe possesses, and their effects show they have virtues which surpass any combination of medicines hitherto known.—Other preparations be more or less good; but this cures such dangerous complaints, so quickly and so surely, as to prove an efficacy and a power to expect discovered any thing which has ever been known before. By removing the obstructions of the internal organs and stimulating the vitals to healthy action, they remove the foundation of disease and vigor—health, comfort grow through the body, and the sick man is a man again. They are adapted to disease, and disease only, for when taken by persons in health they produce but little effect. This is the perfection of a medicine. It is antagonistic to disease, and no more. Testimonials may take them with impunity. If they are sick they will cure them, if they are well they will do them no harm.

Give them to some patient who has been prostrated with bilious complaint, sick headache, costiveness, feeling form stagnation with strength failing, eye hollow, lost appetite, urine high colored, tongue furred, features [illegible] health. Give them to some sufferer whose fair blood has burst out in scrofula the skin is covered with sores; who stands, or sits, or lies in misery. He has been dosed with medicine and tortured with every potion which ingenuity could suggest. Give them to him whose sinking humors have planted rheumatism in his joints and bones; leave him, and he screams with pain; let her have been racked through every tissue of the body with ointments and salves; give him these Pills to purify his blood; they may not cure him, for, alas! there are cases which no mortal power can reach; but mark, he walks with erect mien, and now he walks about they have cured him.

Have you the less serious symptoms of these disorders, they are the easier cured, jaundice, Costiveness, Headache, Sick-ache, Heartburn, Foul Stomach, Nausea, Pain in the Bowels, Flatulency, Loss of Appetite, King's Evil, Neuralgia, Gout, and kindred complaints all arise from the derangements which these Pills rapidly cure. Take them perseveringly, and under the counsel of a good Physician if you can; if not, take them judiciously by such advice as we give you, and the distressing, dangerous diseases they cure, which inflict so many millions of the human race, are cast out like the devils of old—they must borrow in the hottest shade in the sea. Price 25 cents per box—5 boxes for $1.
